# The Pain Society of the Carolinas Exhibitors 2017

(Alphabetical Roster)

St. Jude Medical is now Abbott. Innovations designed to improve patients' quality of life. We have challenged ourselves to develop and invest in better technologies to help people affected by chronic pain and movement disorders. Our featured neuromodulation products include innovations that increase therapy options, adapt to changing technology and fit patients' lifestyles. In addition to our neuromodulation products, we offer a variety of complementary neuromodulation leads and accessories. [www.sjm.com](http://www.sjm.com) and [www.abbott.com](http://www.abbott.com)

For over 20+ years, Aegis® has remained one of the most trusted drug testing laboratories for pain management, forensics and sports organizations throughout the U.S. With Aegis® you have access to: testing in oral fluid, urine and/or blood; consultation with 16 PhD/5 PharmD experts; and the highest quality client service in the industry. [www.aegislabs.com](http://www.aegislabs.com)

At AffirmHealth, we build software that protects pain and addiction recovery patients—and the healthcare practices that serve them. Our Dash software streamlines mandatory clinical processes, keeping practices compliant with state and federal guidelines while delivering actionable patient safety and risk insights. [www.affirmhealth.com](http://www.affirmhealth.com)

AIS Pain Care is the industry leader in injectable medications for patients with implanted intrathecal pain pumps. Founded in 1998, AIS has a new state of the art pharmacy and clean room in Jackson, MS. AIS is USP 797 compliant and licensed to provide medications to all 50 states and Puerto Rico. Our patient first, always approach combined with knowledgeable and experienced pharmacists with over 225 years of experience can meet all your intrathecal needs, 24 hours a day, 7 days a week. [www.aispaincare.com](http://www.aispaincare.com)

Alere Toxicology is committed to helping you develop a compliant medication monitoring program that improves patient outcomes, enhances patient safety, and protects your practice. Abiding by the highest standards of laboratory compliance, our goal is to provide clinicians with tools to help individualize therapy and optimize patient outcomes through customized testing options. [www.alere.com](http://www.alere.com)

Our pursuit. Life's potential.®

From our beginnings as an eye care company to our focus today on several medical specialties, including eye care, neurosciences, medical aesthetics, medical dermatology, breast aesthetics, obesity intervention and urologics, Allergan is proud to celebrate more than 60 years of medical advances and proud to support the patients and physicians who rely on our products and the employees and communities in which we live and work. For more information regarding Allergan, go to: [www.allergan.com](http://www.allergan.com)

Altius Diagnostics Laboratory provides high-quality service for urine toxicology and medication monitoring. Our vision is to provide best-in-class services for physicians and patients. Our well-tenured team of Ph.D. level scientists and toxicologists is ready to support physicians' needs and to answer any questions regarding testing protocols and results interpretation. [www.altiusdiagnostics.com](http://www.altiusdiagnostics.com)

Arbor Pharmaceuticals, headquartered in Atlanta, Georgia, is a specialty pharmaceutical company currently focused on the cardiovascular, hospital, neuroscience and pediatric markets. The company has over 700 employees including approximately 600 sales professionals promoting its products to physicians, hospitals, and pharmacists. Arbor currently markets over twenty NDA or ANDA approved products with over 35 more in development. For more information regarding Arbor Pharmaceuticals or any of its products, visit [www.arborpharma.com](http://www.arborpharma.com) or send email enquiries to [info@arborpharma.com](mailto:info@arborpharma.com)

Automated HealthCare Solutions ("AHCS") is a leading provider of technology-enabled dispensing solutions for physicians serving workers' compensation patients and patients covered by personal injury protection insurance. AHCS has developed a powerful, next generation claims management technology platform, called ezDispense™ for point of care medication dispensing. The platform enables the Company to remove many of the traditional barriers associated with physician dispensing, while virtually eliminating reimbursement risk and ensuring patients receive their medication. Unlike other physician billing services, AHCS is able to assume the collection risk on claims and guarantee reimbursement to its physicians. This enables physicians to do what they were trained to do... practice medicine! [www.ahcs.com](http://www.ahcs.com)

AstraZeneca is a global, innovation-driven biopharmaceutical business that focuses on the discovery, development and commercialisation of prescription medicines, primarily for the treatment of cardiovascular, metabolic, respiratory, inflammation, autoimmune, oncology, infection and neuroscience diseases. AstraZeneca operates in over 100 countries and its innovative medicines are used by millions of patients worldwide. For more information please visit: [www.astrazeneca.com](http://www.astrazeneca.com)

Boston Scientific's Illumina 3D™ Portfolio personalizes therapy by delivering multiple waveforms to a precise neural target. This portfolio of devices includes Precision Spectra™ - the world's first and only 32 contact SCS device, Precision Montage™ MRI – giving patients access to full-body MRI scans, and Precision Novi™ - the smallest, thinnest high-capacity non-rechargeable device. [www.bsci.com](http://www.bsci.com)

Collegium Pharmaceutical, Inc. is a specialty pharmaceutical company developing and commercializing next generation, abuse-deterrent products for the treatment of patients suffering from chronic pain and other disease [www.collegiumpharma.com](http://www.collegiumpharma.com)

Daiichi Sankyo is a global pharmaceutical company with corporate origins in Japan. We provide innovative products and services in more than 20 countries around the world. With more than 100 years of scientific expertise, our company draws upon a rich legacy of innovation and a robust pipeline of promising new medicines to help patients. Through the outstanding knowledge and commitment of our 15,000 employees worldwide, we create innovative new and generic medicines, and new methods of drug discovery and delivery. We share a passion for innovation, as well as compassion for the patients around the world who are in need of our medicines. [www.dsi.com](http://www.dsi.com)

Depomed, Inc. is a leading specialty pharmaceutical company focused on developing and commercializing products for pain and neurology-related disorders. Founded in 1995, Depomed has built a strong market presence with a highly differentiated portfolio of six marketed products in the areas of mild to severe acute pain, moderate to severe chronic pain, neuropathic pain, migraine and breakthrough cancer pain. [www.depomed.com](http://www.depomed.com)

Disc Disease Solutions is an innovative medical device company, introducing a full line of the “Original” Decompression bracing for the cervical spine, lumbar spine and arthritic knees. Many physicians, athletes and patients have used DDS Technology with great success by preventing injuries, treating pain and speeding up the recovery process. Visit us at [www.ddsbelt.com](http://www.ddsbelt.com)

DRUGSCAN® is Fast, Professional, Accurate, & Responsive. One of only a few nationally certified SAMHSA toxicology laboratories; DRUGSCAN® is a leader in clinical and forensic toxicology, medication monitoring, and drug detection laboratory services. At DRUGSCAN®, our mission is to keep everyone in the patient care continuum safe and compliant with all regulations; providing clients with advanced technology, accurate results, and superior customer service. Visit: [www.drugscan.com](http://www.drugscan.com)

**DUKE INNOVATIVE PAIN THERAPIES.** The team of physicians at Duke Health's new multispecialty practice at Brier Creek is dedicated to transforming the way people who are suffering from chronic pain receive care and treatment. We offer people in pain convenient access to a variety of advanced pain therapies from experienced, highly-trained pain management specialists. Our team includes experts in acupuncture and Asian medicine as well as one of only four dentists in North Carolina certified by the American Board of Orofacial Pain. We focus on the use of non-opioid pain therapies to treat a variety of pain conditions in a personalized environment that allows for optimal comprehensive care. Our doctors help people obtain relief from headaches, back and neck pain, facial and temporomandibular joint pain (TMJ), sleep disorders, pain associated with damaged nerves, fibromyalgia, arthritis, chronic musculoskeletal and functional pain conditions, neuropathic pain, and more. Visit: <https://www.dukehealth.org/locations/duke-innovative-pain-therapies-brier-creek>

EA Medical, LLC is a leading regional specialty medical device distribution company and is the exclusive representative for the SphenoCath from Dolor Technologies, Inc. The SphenoCath is the first and only patented catheter designed to facilitate neuromodulation of the Sphenopalatine Ganglion (SPG) complex. To learn more, please visit [www.eamed.com](http://www.eamed.com)

Ethos focuses on providing excellent quality and service for every customer. Many companies talk about quality; at Ethos Laboratories we demonstrate it - sample by sample. Viewing quality as exceeding your expectations, we make sure we understand exactly what those requirements are and then work with you as a partner to meet every testing need. We believe that taking care of our employees and listening to our customers is absolutely essential to success. Everyone at Ethos is driven to provide the most accurate testing options appropriate to your specific testing needs. Our clinical staff is committed to provide the highest levels of scientific expertise and customer support. [www.ethos-labs.com](http://www.ethos-labs.com)

Dedicated to the advancement of targeted drug delivery to treat pain. The Flowonix Prometra drug delivery system is different. Medication is delivered directly into the fluid surrounding the spinal cord using the medication pump, which is implanted under the skin. This means that therapy can be managed by lower doses of medication than if taken by mouth. [www.flowonix.com](http://www.flowonix.com)

Halyard Health COOLIEF\* Cooled Radiofrequency (RF) System is a revolution in radiofrequency technology as the cooled radiofrequency platform allows for creation of large-volume, spherical lesions - giving physicians the power of targeted treatment for symptomatic patients, even in difficult to treat anatomy. [www.halyardhealth.com](http://www.halyardhealth.com)

Horizon Pharma plc is a specialty biopharmaceutical company focused on improving patients' lives by identifying, developing, acquiring and commercializing differentiated and accessible medicines that address unmet medical needs. The Company markets seven medicines through its orphan, primary care and specialty business units. Horizon's global headquarters are in Dublin, Ireland.

[www.horizonpharma.com](http://www.horizonpharma.com)

INJURY FINANCE

HEALTHCARE FUNDING EXPERTS

Injury Finance is one of the oldest healthcare funding companies in the country, offering a solution for injured individuals to obtain medical treatment they otherwise wouldn't be able to access. We provide value by driving additional patient volume, paying at competitive rates, and eliminating all financial risk for contracted medical providers. [www.injuryfinance.com](http://www.injuryfinance.com)

Jazz Pharmaceuticals plc is a dynamic specialty biopharmaceutical company that identifies, develops and commercializes innovative products to address unmet medical needs in focused therapeutic areas, always keeping in mind our mission to improve patients' lives. Living our core values of integrity, passion, collaboration, innovation and the pursuit of excellence is the key to our success.

[www.jazzpharma.com](http://www.jazzpharma.com)

Kaleo is a pharmaceutical company dedicated to putting a new generation of life-saving personal medical products into your patient's hands. Each Kaleo product combines an established drug with an innovative delivery platform with the goal of achieving superiority, cost effectiveness and patient preference.

[www.kaleo.com](http://www.kaleo.com)

As an industry leader in drug testing, we conduct more than 9.0 million drug tests annually, helping physicians meet today's prescription monitoring requirements. [www.questdiagnostics.com](http://www.questdiagnostics.com)

The name **Radeas** is derived from merging two words: **radical ideas**. The purpose of Radeas Laboratories is to bring radical ideas in analytical testing to the clinical laboratory. With our unique analytical methods and highly specific approach, Radeas aims to provide the best possible service to healthcare providers. Radeas is a full service company that offers urine drug screening, routine blood testing, and laboratory consulting. Radeas offers consulting services for new or existing laboratories. Our team of specialists provide laboratories with a laboratory director, assistance with accreditation, and help assembling the proper equipment. [www.radeas.com](http://www.radeas.com)

Saluda Medical was established in 2013 in Australia and has developed a closed loop SCS system to treat chronic pain. The system regulates the dose of electrical stimulation real-time, with the objective to achieve superior, long-term pain relief. It is currently under investigation in the US. [www.saludamedical.com](http://www.saludamedical.com)

With over 40 years of experience in the lab industry, and more than 80 POL's currently under management, Select Laboratory Partners, Inc. (SLP) offers high quality, onsite clinical laboratory management for Primary Care, Pain Management, and Behavioral Therapy Practices. The SLP Total Care Comprehensive Lab Management Program allows the practice to deliver exceptional onsite testing with a minimum investment of time and overhead. We specialize in CLIA High Complexity Physician Office Lab (POL) lab development and management; Urine Toxicology; EIA Screening and LC/MS Confirmation; CLIA High Complexity Licensing and Certification; installation and validation of instruments; recruitment, training and placement of medical lab techs; and directors; Lab Information Systems; Reference Lab Development and Management; Hospital Outreach Lab Development and Management. [www.slplabs.com](http://www.slplabs.com)

SI-BONE pioneered the use of the iFuse Implant System®, a minimally invasive surgical (MIS) device indicated for fusion of the sacroiliac (SI) joint. The triangular implants designed specifically to stabilize and fuse the heavily loaded SI joint. More than 20,000 procedures have been performed with the iFuse Implant System – the method of choice for SI joint fusion. Multiple published studies have documented procedure safety and effectiveness. The iFuse System is intended for sacroiliac joint fusion for conditions including SI joint dysfunction that is a direct result of SI joint disruptions and degenerative sacroiliitis. [www.si-bone.com](http://www.si-bone.com)

StreamlineMD is a certified provider of Electronic Health Record (EMR), Practice Management (PM), and billing solutions. The company offers its services principally to independent physician practices focused on Pain Management and related specialties. The StreamlineMD EHR contains fully developed clinical content for interventional pain management including more than 50 procedures. In addition, StreamlineMD is one of the few EMR products that is EPCS certified, allowing physicians to transmit controlled substances electronically. [www.streamlinemd.com](http://www.streamlinemd.com)

Stryker is one of the world's leading medical technology companies and, together with its customers, is driven to make healthcare better. The company offers innovative products and services in Orthopaedics, Medical and Surgical, and Neurotechnology and Spine that help improve patient and hospital outcomes. More information is available at [www.stryker.com](http://www.stryker.com).

Tenet is a provider of diagnostic laboratory testing, information and services that enable physicians and other healthcare professionals to make decisions to improve health. Clinical laboratory testing is an essential element in the delivery of health care services. Physicians use laboratory tests to assist in the decision, diagnosis, evaluation, monitoring and treatment of diseases and other medical conditions. Tenet Laboratories has combined the best available science, methods and technology to provide the next generation in clinical laboratory testing. [www.Tenetdiagnostics.com](http://www.Tenetdiagnostics.com)

We are a Trusted Anesthesia Management Partner dedicated to providing the highest quality anesthesia services. We are a small company that truly values our relationships with our partners and providers. In keeping our company small, we ensure that we are able to consistently meet our partners every need. [www.tmms.care](http://www.tmms.care)

Trident is focused on EHR Optimization. We rely on employees with years of experience implementing and optimizing new Electronic Health Record systems for healthcare organizations throughout the country. Implementing an EHR system can be a difficult and costly project. It is crucial that once a system has been implemented, the staff, including physicians and clinicians, trust that the technology will make their jobs easier and lives better. [www.tridentmedgroup.com](http://www.tridentmedgroup.com)

US WorldMeds is a specialty pharmaceutical company that brings to market unique products designed to improve the lives of patients with challenging conditions. MYOBLOC® (rimabotulinumtoxinB) is indicated for the treatment of adults with cervical dystonia to reduce the severity of abnormal head position and neck pain associated with cervical dystonia. [www.usworldmeds.com](http://www.usworldmeds.com)

Vertos Medical Inc. is a medical device company committed to developing innovative, minimally invasive treatments for lumbar spinal stenosis (LSS). Its proprietary technologies include *mild*®, which offers a safe, outpatient, minimally invasive, fluoroscopically guided therapeutic LSS treatment that requires no general anesthesia, no implants, and no stitches. LSS is primarily a degenerative, age-related narrowing of the lower spinal canal that causes symptoms of pain and numbness in the lower back, legs, or buttocks. *mild*® treats this condition by restoring space in the spinal canal using specialized *mild*® devices to remove hypertrophic ligamentum flavum through a 5.1 mm treatment portal. Clinical trials show that *mild*® can help LSS patients stand longer and walk farther with less pain<sup>1</sup>, and no major device-related complications have been reported.<sup>2</sup> For more information, visit [www.Vertosmed.com](http://www.Vertosmed.com).
