

Pain Society of the Carolinas Annual Meeting Exhibitors 2019

(Alphabetical Roster)

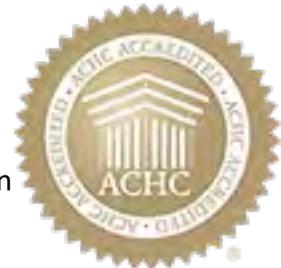

CHRONIC PAIN MANAGEMENT MOVE MORE PATIENTS FROM PAIN TO RELIEF

A large and costly problem, chronic pain affects approximately 1.5 billion people worldwide—more than heart disease, cancer and diabetes combined.¹ That's why Abbott is redefining chronic pain relief. Whether your patients experience precise or pervasive* pain, our advanced approach to neuromodulation, with two superior and proven therapies, gives you the opportunity to provide better relief.**²⁻⁴ Our proprietary dorsal root ganglion (DRG) therapy targets certain intractable focal pain of the lower limbs caused by CRPS,² while our spinal cord stimulation (SCS) therapy, with revolutionary BurstDR™ stimulation,^{***} helps relieve pain felt broadly in the back, arms and/or legs. With Abbott, you can maximize patient outcomes by tailoring relief—because all pain is not equal. Additionally, our radiofrequency ablation portfolio provides a minimally invasive alternative to back pain management.

www.abbott.com

AIS HealthCare™ exemplifies our transformation from a specialty pharmacy to an advanced care services organization and unifies the full range of our expanded advanced care services. Combined with accreditation status from ACHC, new patient-centric care icon and our commitment to “Patient. Care. Trust.™,” AIS HealthCare is poised to deliver the highest level of value in intrathecal and infusion care. www.aiscaregroup.com

Founded in 1990, Aegis Sciences Corporation is a laboratory sciences company based in Nashville, Tenn., that provides clear, reliable and actionable information on patients' medication adherence to help healthcare providers make better decisions. Services include but not limited to: PainComp® medication compliance testing and InterACT Rx™ drug interaction testing. www.aegislabs.com

Our pursuit. Life's potential.®

From our beginnings as an eye care company to our focus today on several medical specialties, including eye care, neurosciences, medical aesthetics, medical dermatology, breast aesthetics, obesity intervention and urologics, Allergan is proud to celebrate more than 60 years of medical advances and proud to support the patients and physicians who rely on our products and the employees and communities in which we live and work. For more information regarding Allergan, go to: www.allergan.com

Assertio's mission is to advance patient care in our core areas of neurology, orphan and specialty medicines. www.assertiotx.com

Automated HealthCare Solutions (AHCS) is the leading provider of technology-enabled dispensing solutions for physicians serving workers' compensation and auto injury patients at the point of care. AHCS' powerful, next generation software ezDispense, helps physicians manage in-office medication dispensing while simultaneously removing many of the traditional barriers associated with physician dispensing. www.ahcs.com

AVANOS

Avanos is a medical device company focused on delivering clinically superior breakthrough solutions that will help patients get back to the things that matter. Headquartered in Alpharetta, Georgia, Avanos is committed to creating the next generation of innovative healthcare solutions which will address our most important healthcare needs, such as reducing the use of opioids while helping patients move from surgery to recovery. Avanos develops, manufactures, and markets its recognized brands in more than 90 countries www.avanos.com

Basic Home Infusion specializes in providing pharmacy and nursing services for intrathecal pumps nationwide for chronic pain and spasticity. Over 30 years of unmatched experience and reputation providing patient specific medications, at-home pump refills, dose titrations and MRI support, with excellence in safety, quality, service and access to optimize therapeutic outcomes and improve quality of life. www.basichomeinfusion.com

BioDelivery Sciences ("BDSI"®) is a rapidly growing commercial-state specialty pharmaceutical company dedicated to patients living with chronic conditions. BDSI is utilizing its novel and proprietary BioErodible MucoAdhesive (BEMA) technology and other drug deliver technologies to develop and commercialize new applications of proven therapies aimed at addressing important unmet medical needs. www.bdsi.com

**Boston
Scientific**

Advancing science for life™

Boston Scientific's Illumina 3D™ Portfolio personalizes therapy by delivering multiple waveforms to a precise neural target. This portfolio of devices includes Precision Spectra™ - the world's first and only 32 contact SCS device, Precision Montage™ MRI – giving patients access to full-body MRI scans, and Precision Novi™ - the smallest, thinnest high-capacity non-rechargeable device. www.bsci.com

CPI
Carolinas Pain Institute

Carolinas Pain Institute is dedicated to the diagnosis and treatment of chronic, acute, and cancer pain. We offer the latest advances in pharmacology, physiotherapy, and cognitive and interventional therapy, remote patient monitoring, access to national clinical trials through the Center for Clinical Research, and support and educational resources through our partnership with PainPathways Magazine. CPI focuses on training interventional pain physicians. www.carolinaspaininstitute.com

DUKE INNOVATIVE PAIN THERAPIES. The team of physicians at Duke Health's new multispecialty practice at Brier Creek is dedicated to transforming the way people who are suffering from chronic pain receive care and treatment. We offer people in pain convenient access to a variety of advanced pain therapies from experienced, highly-trained pain management specialists. Our team includes experts in acupuncture and Asian medicine as well as one of only four dentists in North Carolina certified by the American Board of Orofacial Pain. We focus on the use of non-opioid pain therapies to treat a variety of pain conditions in a personalized environment that allows for optimal comprehensive care. Visit: <https://www.dukehealth.org/locations/duke-innovative-pain-therapies-brier-creek>

Our goal is to positively contribute to the pain management community by improving the lives of patients through cutting-edge testing options with a turn-around time among the fastest in the industry. We are a premier provider of laboratory services nationwide, delivering an outstanding service experience for each individual provider. Ethos focuses on providing excellent quality, service, and support for every customer. We strive to exceed your expectations by fully understanding your specific requirements and partnering with you to meet every testing need. www.ethos-labs.com

Flexion Therapeutics (Nasdaq:FLXN) is a biopharmaceutical company focused on the development and commercialization of novel, local therapies for the treatment of patients with musculoskeletal conditions, beginning with osteoarthritis, a type of degenerative arthritis. The company's core values are focus, ingenuity, tenacity, transparency and fun. www.flexiontherapeutics.com

Flowonix Medical is dedicated to working with healthcare professionals to provide an optimal solution for the treatment of their patients' chronic pain. We are proud to be a leader in healthcare innovation and continue to advance medical technology to help patients return to normal lives. Please visit www.flowonix.com

Frier Levitt is a national boutique healthcare law firm. Our 30+ attorneys include numerous clinicians with years of hands-on experience. We represent stakeholders across the entire healthcare spectrum, including large physician group practices, ambulatory surgery centers, laboratory companies, as well as the complete panoply of ancillary service providers. Dr. Lawrence Kobak, Esq., Counsel with Frier Levitt, serves the New York State Pain Society as General Counsel. Visit www.FrierLevitt.com

Gnuity Medical specializes in reimbursable non-opioid pain solutions. We are committed to delivering our partner providers with cutting edge, first-in-class medical technologies and ancillary services that yield optimum clinical outcomes for their patients, while driving significant revenue to the practice's bottom line. To discuss partnership options contact rwoodson@gnuitymedical.com.

The Harvard MedTech SMART VRT Program is much more than an off-the shelf, high-tech gadget. It's a turnkey, programmatic solution that incorporates Virtual Reality's analgesic effects and lasting behavior modification therapy. It allows physicians to help patients manage chronic pain, and become more pain resilient, thereby reducing the need for highly addictive prescription pain medications.

www.harvardmedtech.com

Horizon Therapeutics is a biopharmaceutical company focused on improving patients' lives by identifying, developing, acquiring and commercializing differentiated and accessible medicines that address unmet medical needs. www.horizonpharma.com

As a global leader in medical technology, services and solutions, Medtronic improves the lives and health of millions of people each year. We use our deep clinical, therapeutic, and economic expertise to address the complex challenges faced by healthcare systems today. Let's take healthcare Further, Together. Learn more at www.Medtronic.com

Nature's Highway is a full-spectrum CBD company with deep roots in South Carolina. As part of the Clemson University Ext. Pilot Program, we cultivate, grow, harvest and process our CBD oil on our farm located in Neeses, SC. From our full spectrum tinctures, salves and lotions under Nature's Highway label to our full line of Cosmetics products under the Cannabloom brand, we offer something for every consumer.. www.natureshwysupplements.net

Neuro's Senza[®] system, the only SCS system that delivers Neuro's proprietary HF10 therapy, an advanced SCS therapy that provides electrical pulses to the spinal cord at a rate up to 10,000 per second (10 kHz). www.nevro.com

Organogenesis offers a portfolio of bioactive and acellular biomaterials products in advanced wound care and surgical biologics, including orthopedics and spine. Organogenesis's versatile portfolio is designed to treat a variety of patients with repair and regenerative needs. www.organogenesis.com

At Paradigm Laboratories, our mission is to provide physicians accurate information that improve the health of their patients. **Service:** We understand the bond the physician has with their patients and we strive to be an extension of that exceptional care. **On-Site Solutions:** Paradigm Laboratories is prepared to offer an onsite solutions program, which provides your practice with a dedicated, credentialed Paradigm Laboratories employee to collect, process, and ship samples. www.paradigmlaboratories.com

Pentec Health, Inc. is a Joint Commission accredited specialty pharmacy and infusion provider that specializes in providing comprehensive care for patients with implanted pumps treating severe pain and/or spasticity. Our proprietary electronic communications platform ensures all disciplines remain informed and focused on improving patient outcomes. www.pentechealth.com

Radeas Laboratories, headquartered in Wake Forest, N.C., is an industry leader in fast, reliable and easy to interpret results. Like the radius of a circle, Radeas provides a comprehensive solution of toxicology services including urine drug testing, medication monitoring and laboratory consulting services. www.radeas.com

At Salix, we know how important it is to deliver products that healthcare professionals (HCPs) want to prescribe. So, we provide treatments that effectively address a wide variety of **gastrointestinal (GI) diseases** for a wide variety of patients. www.salix.com

Saluda Medical was established in 2013 in Australia and has developed a closed loop SCS system to treat chronic pain. The system regulates the dose of electrical stimulation real-time, with the objective to achieve superior, long-term pain relief. It is currently under investigation in the US. www.saludamedical.com

www.scilex.com

The World's only intentionally reversible PNS system designed for periphery. The SPRINT PNS System has been studied extensively and ongoing clinical trials are further evaluating its impact in chronic neuropathic pain, back pain, and acute post-surgical pain. Pain relief. Without Drugs, Implants, Anesthesia, or Incisions. www.sprtherapeutics.com

Stimwave's Freedom SCS & PNS System, the world's only fully programmable wireless stimulator platform for Dorsal Root Ganglion, Peripheral Nerve and Spinal Cord Stimulation, features the world's smallest, microsize neurostimulator, 95% smaller than other systems. Revolutionizing the industry with sleek, easily wearable technology for patients needing pain management. www.stimwave.com

Together with our customers, we are driven to make healthcare better. By continuously investing in research and technology, we provide the most advanced medical technology for interventional spine procedures. From workplace awards, community service involvement and retaining the very best employees, we have a reputation worth honoring. Our more than 100 expert sales representatives are rigorously trained to support your practice, offer product and procedural consultation and be an active partner in helping you achieve goals.
